PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience delivering analytics, business intelligence, reporting automation, data quality improvements, and predictive insights across fintech compliance, retail operations, and agri-business. Strong hands-on experience with SQL, Python, Power BI, Tableau, Excel, DAX, Power Query, ETL pipelines, KPI dashboards, data modeling, forecasting, anomaly detection, risk scoring, stakeholder reporting, requirements gathering, and GDPR-aligned data governance. Known for converting raw business data into reliable dashboards, scalable reporting workflows, and decision-ready insights that improve efficiency, compliance visibility, and operational performance.

CORE SKILLS

Analytics & BI: Business Intelligence, Data Analysis, KPI Reporting, Executive Dashboards, Operational Reporting, Data Visualization, Stakeholder Reporting, Decision Support

Tools & Technologies: SQL, T-SQL, Python, Pandas, NumPy, Power BI, Tableau, Excel, DAX, Power Query, PostgreSQL, MySQL, Git, GitHub

Data Management: ETL Pipelines, Data Modeling, Data Cleansing, Data Validation, Data Quality, Reporting Automation, Workflow Automation, Audit Trails

Advanced Analytics: Predictive Modeling, Forecasting, Regression Analysis, Clustering, Anomaly Detection, Risk Scoring, Statistical Analysis

Business Domains: Fintech Compliance, Identity Verification, Retail Operations, Inventory Analytics, Sales Analytics, Agri-Business Analytics, GDPR-Aligned Governance

PROFESSIONAL EXPERIENCE

Founder and Data Analyst, Amruta Dhaanya

India | Jul 2026 – Present

- Built a data-driven operations platform to manage sales, inventory, product, pricing, and customer data for an agri-products venture.
- Created performance dashboards to monitor product movement, stock availability, margins, and purchasing decisions.
- Used business data to improve visibility into demand trends, pricing gaps, inventory planning, and operational decision-making.

Director, Retail Operations and Data Strategy, Twinlion Poladi Motors Ltd

Cardiff, UK | Aug 2025 - Jun 2026

- Designed inventory and sales tracking systems covering 20–60 vehicles, improving real-time stock visibility, pricing control, and turnover analysis.
- Analyzed customer, enquiry, sales, and inventory data to identify demand patterns and reduce slow-moving stock by an estimated 15–20%.
- Automated stock-planning and reporting workflows, saving approximately 5–8 hours per week in manual planning effort.
- Translated operational requirements into practical dashboards and reports for sales performance, inventory movement, and margin analysis.

Business Data Analyst, Smartsmire

UK | Sep 2024 - Dec 2025

- Designed scalable ETL pipelines for identity verification and compliance analytics, reducing estimated manual review time by 30–40%.
- Built Python and SQL-based risk scoring and anomaly detection models to flag suspicious identity claims before compliance review.
- Developed Power BI dashboards for compliance, verification status, exception tracking, and operational KPIs, improving data access efficiency by approximately 30%.
- Optimized SQL queries and automated recurring reporting processes, reducing report generation time by 40%.

- Implemented GDPR-aligned data governance, audit trails, validation checks, and traceable reporting workflows to support defensible compliance monitoring.

Data Analyst, ASAP Data Solutions

Hatfield, England, UK | Jul 2021 – Nov 2022

- Built interactive Tableau and Power BI dashboards for business stakeholders, reducing data turnaround time by 25%.
- Optimized SQL scripts, joins, and database queries, reducing execution time by 20% and improving reporting performance.
- Delivered statistical forecasting and trend analysis initiatives that improved demand-prediction accuracy by 18%.
- Created data validation and quality-control workflows, achieving 100% validation accuracy across critical reports.
- Partnered with business users to gather requirements, define KPIs, and convert reporting needs into dashboard and analytics solutions.

Junior Data Analyst, Accumed Software Solutions Pvt Ltd

Hyderabad, India | Feb 2019 - May 2020

- Built inventory tracking dashboards and operational reports that reduced stock-management issues by 25%.
- Automated data loading using Shell Scripts and optimized T-SQL queries to resolve long-running database processes.
- Analyzed process and performance data for operational teams, contributing to a 20% improvement in workforce productivity.
- Supported reporting, data extraction, data cleansing, and dashboard maintenance for recurring business intelligence requirements.

EDUCATION

MSc Data Science, Cardiff Metropolitan University, UK | 2020 - 2023

B.Tech Computer Science, SR University, India | 2015 - 2019

Associate Degree, Entrepreneurship, Indian School of Business | 2017 - 2019

ACHIEVEMENTS

- **Winner - Startup India, Telangana Yatra (2018)**
- **Top 3 Innovator - State Innovation Technology Program (2019)**
- **Top 10 Innovator Agricultural Technology:** Patented Food Grain Dryer; recipient of ₹50,000 rural innovation grant
